Neo – By Hulsta

Endless versatility with sophistication and style, Neo has it all. Made in Germany, the system offers a wide array of options for every living/dining room storage situation imaginable. It also brings in the element of technology through its sound panel/sub woofer options, with Bluetooth and iPod connectivity, all of which is integrated invisibly so you don't even know it's there. There are entertainment units, buffets, wall systems and many other options, with Led touch lighting and remote operation. It is the system for "Living in tomorrow's world today". There is a variety of timber and lacquer colour options in matt and gloss.
